Subject: Microsoft Settlement

To whom it may concern,

I have been following the Microsoft Antitrust case since the beginning. I feel that the settlement reached between the Justice Department, et al, and Microsoft is not in the public interest.

I cite the following:

- 1) The settlement's enforcement mechanism relies on having people paid BY MICROSOFT police its behavior.
- 2) The settlement leaves loopholes that have the effect of negating the spirit of the agreement.
- 2) Microsoft was proven to be a monopoly, and also had proven to abuse its status as a monopoly. It should not be dictating the terms by which the law will be enforced.

Thank you for your time,
